

# Coronavirus disease (COVID-19) COMMUNITY SITUATION REPORT

## FNHA Public Health Response

December 6, 2021

Changes from the previous Community Situation Report are in red.

### COVID-19 Updates

#### First Nations Cases in BC – As of December 01, 2021

- There have been a total of **14,187** First Nations COVID-19 cases (**13,943** lab diagnosed cases and **244** epi-linked cases). This is an increase of **195 cases among First Nations people in BC** since the last published report.
- Out of the **14,187** cases, **6,110 (43.1%)** are in or near community; **7,660 (54.0%)** are off reserve. Information on in or near community/off reserve is not available for **417 (2.9%)** cases.
- There are total **251** active First Nations COVID-19 cases in British Columbia. There are **134** active COVID-19 cases residing in or near community.
- Sadly, there have been a total of **216** COVID-19 related deaths reported among First Nations living in BC since the beginning of the pandemic. **Four** additional deaths are reported since **the last published** report.
- There have been a total of **1,479 (10.4%)** First Nations people hospitalized due to COVID-19 since March 1, 2020. Of these, **648** hospitalizations are individuals who live in or near community and **821** off reserve. Information on in or near community/ off reserve is not available for **10** cases.

Data Sources: PHSA Public Health Lab Data and BCDC's COVID-19 Surveillance Line List

\*Total number of cases (n=14,187) includes two (2) cases reported as "Out of Canada" residents, twenty-three (23) cases reported as "Out of BC – Alberta" residents, two (2) case reported as "Out Of BC – Ontario", one (1) case reported as "Out Of BC – Quebec, one (1) case reported as "Out Of Canada - Country other", and five (5) cases reported as "Out of BC – Saskatchewan" resident. Above figure provides regional distribution of COVID-19 cases (n=14,153) reported as BC residents.

**Regional Active cases and Testing data as of December 1, 2021**

	Fraser Salish	Interior	Northern	Vancouver Coastal	Vancouver Island	Total N (%)
Active First Nations COVID-19 cases <sup>a</sup>	14	37	67	42	90	251
Total persons tested <sup>b</sup>	12,785	13,711	15,738	11,107	12,150	65,518
Cumulative percentage positivity (%) (Feb, 2020 to December 1, 2021)	8.1%	11.6%	20.2%	9.9%	10.2%	12.1%
Percentage positivity (%) over the past week (November 25 to December 1, 2021)	2.7%	8.3%	17.0%	6.1%	22.5%	11.3%
Testing rate (total tests per 100,000 First Nations people)	101,734.1	73,739.6	62,478.3	95,624.7	54,749.1	73,944.4

<sup>a</sup> Algorithm to define people who are removed from isolation is updated on February 5, 2021, to reflect change adopted by PHSA. Updated algorithm assigns cases who are lost to follow up and whose surveillance date (reported date and if not available then result date) >=20 days before the line list case dataset date to "removed from isolation."

<sup>b</sup> Geographical Information (RHAs) for 27 BC First Nations people who are tested for COVID-19 is not available. They are included in total number of First Nations people tested in BC.

\*Total number of cases (n=14,187) includes 417 cases without information on LHA of residence and "In or Near Community" analysis. Information about in or near community analysis is not available for eighteen (18) active cases.

Note: Analyses for in or near community includes lab confirmed cases and epi-linked cases with known geographical information. Other cases (including cases tested outside of BC) are included in the cases by Health Authority. **As of December 1, 2021, there were 134 active First Nations COVID-19 cases in or near community.**

There is an increase in the proportion of COVID-19 cases who are <12 years of age, and to a lesser degree 30-39 years of age, reported between August 1 to December 1, 2021 compared to the proportion of cases of these age groups reported between January 15 to July 31, 2021.

The cumulative percent positive for all COVID-19 tests completed for First Nations in BC was **12.13%** as of **December 1, 2021**. The rate of positive cases was **8,738.4 per 100,000** people among First Nations. The rate of positive cases among other residents of BC was **4,174.9 per 100,000** people.

**Epidemic curve for COVID-19 cases among BC First Nations by episode date (coloured bar)<sup>a</sup>, surveillance date (line) and health authority, British Columbia February 23, 2020 (Week-9) – December 01, 2021 (Week-48, 2021\*) (n=14,187)**

<sup>a</sup> Episode date is now defined as date of illness onset, hospital admission, or death. When those dates are not available, earliest lab date (collection date or result date) is used, and if unavailable, surveillance date is used. Report date used previously is now replaced with surveillance date (laboratory result date); if unavailable, report date is used.

<sup>b</sup> Data source: BCCDC's line list data received from RHAs and PHSA's public health lab data (up to December 01, 2021). This epidemiological curve represents the weekly cases reported among First Nations in BC. The proportion of cases within each region is colour coded and the case counts each day are represented by the solid black line. The incidence per 100,000 are represented by the dotted line. Regions are represented in the diagram as: Fraser – Dark blue, Interior – Red, Northern – Light Blue, Vancouver Coastal – Orange, and Vancouver Island – Green.

### First Nations COVID-19 Vaccination Coverage, by Health Authority

\* HA information was not available for 1,433 clients for dose 1, 939 clients for dose 2.  
 \*\* These analyses were only possible for Status and Status eligible First Nations, and do not include non-status First Nations  
 Note: Although not shown, there are 18,842 clients for dose 3.

### First Nations COVID-19 Vaccination Coverage, by Age Group

Doses 1 and 2 (PHSA e-form, PIR, dose 1= 111,248, dose 2= 100,535), 12+ years, up to December 1, 2021

\* Age group information was not available for 908 clients for dose 1 and 277 clients for dose 2  
 \*\* These analyses were only possible for Status and Status eligible First Nations, and do not include non-status First Nations  
 Note: Although not shown, there are 18,842 clients for dose 3.

## Vaccine Distribution

- As of December 1, 2021, more than 118,700 individuals 18+ years of age and more than 11,600 individuals aged 12-17 years have received at least one dose of a COVID-19 vaccine in First Nations communities, as well as outside of communities by regional health authorities. These individuals are First Nations people, as well as some non-First Nations people who were vaccinated in community. Of these individuals, more than 105,200 First Nations people 18+ years of age and more than 9,900 First Nations individuals 12-17 years old have received two doses. Of these individuals, more than 22,400 First Nations people 18+ years of age and 45 First Nations individuals 12-17 years old have received third doses.
- As of December 1, 82.5% of 18 and older, and 81.5% of 12 and older, status and status-eligible First Nations people in BC have received at least one dose of a COVID-19 vaccine
- As of December 3, 91.2% (4,229,649) of eligible people 12 and older in BC have received their first dose of COVID-19 vaccine and 88% (4,079,277) have received their second dose

## Provincial COVID-19 Cases – Updated as of December 3, 2021, 3:45 p.m.

- Since the start of the pandemic, there have been 219,584 confirmed cases in BC, and 2,351 deaths from COVID-19
- There are 3,071 active cases, 276 people are currently hospitalized and, of those, 95 people are in intensive care

### Regional Breakdown of Total Number of COVID-19 Cases in BC (n=218,880)

Updated: Dec 02, 2021

Data Sources: British Columbia COVID-19 Dashboard

\*Total number of cases (n=219,180) include 300 cases reported as "Out of Canada" residents. Above figure provides regional distribution of COVID-19 cases (n=218,880) reported as BC residents.

## Active Outbreaks (as of December 3, 2021)

- Long-term care/assisted living centres/independent living: 3 outbreaks
- Acute care units: 2 outbreaks

\* A geographic distribution of COVID-19 by Local Health Area can be found [here](#).

\* A weekly update on Variants of Concern can be found [here](#).

## First Nations Community Statistics from Indigenous Services Canada (December 2, 2021):

Access Restrictions: 128 (same)

Security Checkpoints: 66 (same)

Band Offices Inaccessible: 83 (same)

State of Local Emergency: 45 (same)

EOC Activations: 119 (same)

## FNHA Resources and Supports

## FNHA Response

### Working with First Nations

The FNHA is working in partnership with First Nations communities to ensure communities' needs are met, including:

- Maintaining essential services to support First Nations communities during this pandemic
- Providing COVID-19 funding resources and wrap around supports including for medical transportation, self-isolation and quarantine; see the [FNHA Community Support Guide](#) for more information; support requests can be sent to [COVID19needs@fnha.ca](mailto:COVID19needs@fnha.ca)
- Supporting First Nations communities in refreshing their Communicable Disease Emergencies Plans
- FNHA continues to maintain operational availability to respond to COVID-19 support requests over the weekends and during public holidays; at those times, Health Benefits isolation accommodation support and regional on-call support is available
- Launching virtual care services including First Nations Virtual Doctor of the Day and First Nations Virtual Substance Use and Psychiatry Service
- Site selection, training and deployment of Point of Care Testing for COVID-19 is underway

### Working with Partners

The FNHA is continuing to work with our provincial and federal partners towards aligning response efforts in support of First Nations communities and people living away from home across the province. This includes:

- Maintaining regular communication and updates with Regional Health Authorities, Emergency Management of BC, Ministry of Health, First Nations Leadership Council, and Indigenous Services Canada to proactively identify needs and address issues Supporting planning at both the provincial and regional level for the Rural, Remote and Indigenous Framework
- FNHA is in discussions federally and provincially to support BC Restart including reopening of public buildings, and return to work and business operations for facilities where safe and appropriate

### Vaccinations

- The FNHA has worked closely with First Nations communities and other health partners to support vaccine distribution and planning and to prioritize available doses for all communities
- As of March 31, all First Nations adults living on all 203 reserves in BC had access to a first dose of vaccine (Moderna or Pfizer), based on a "whole community" approach
- Second dose clinics in First Nations communities are also now completed; however, FNHA continues to support communities' vaccination clinics, as needed, and is working to supply vaccine doses to local health units so that communities can order them as part of their established ordering pathways

### Personal Protective Equipment

- The FNHA continues to work with federal and provincial partners to obtain personal protective equipment (PPE) for health care staff and first responders in all communities
- First Nations communities requiring personal protective equipment during the COVID-19 emergency can send their requests to [COVID19needs@fnha.ca](mailto:COVID19needs@fnha.ca)
- The form for ordering personal protective equipment is available here: <https://www.fnha.ca/AboutSite/NewsAndEventsSite/NewsSite/Documents/FNHA-Process-and-Considerations-for-obtaining-additional-PPE-for-BC-First-Nations-Communities-Annex-A.pdf>
